## Engines/Generators

## Summary/Description

Luxury for yachters who enjoy the easy handling and dock manners of a mid-sized yacht.

## New Astondoa 52 Flybridge

Introducing the 52' Flybridge sport cruiser. It's a new take on a classic design which strikes the perfect balance between style and modern technology. The exterior lines of this yacht are refined and modern with large windows flanking the hull and superstructure.

The flybridge features hardtop with an opening canvas retractable sunroof. It provides protection and shade when needed, yet opens up to suit guests' needs in changing weather.

Ample lounge seating, dining areas and a large solarium with Portuguese bridge on the bow take full advantage of the outdoor space on board the 52' Flybridge. Outdoor living is enhanced with an outdoor galley and wet bar. Guests have choices where they can enjoy the warm sun and cool breezes while cruising or at anchor.

Unique elements include the personal watercraft garage and submersible bathing platform. Utilizing both, you can carry two PWC or your favorite water toys. Once the toys are deployed, the large platform can remain in the water making it easy to take a dip at your favorite swimming spot.

### INTERIORS

Just inside the three-panel, folding cockpit doors, you will discover that the main saloon proves to be the perfect spot for entertaining, with an ample seating area, plenty of storage and a class-leading aft galley as one of the interior layout options. Natural wood, high-quality finishes, and well-crafted details are in harmony throughout the yacht. The artistic use of rich leather and sleek flooring create a unique atmosphere of minimalist ease and casual luxury.

Overhead skylights and large glazed areas along both sides of the superstructure truly bring the outdoors in, allowing natural illumination and framing panoramic views.

For a vessel of its length, this model provides a surprising amount of living space. Cabins have been skillfully designed to create stylish, intimate spaces where the owner and guests can rest peacefully. The 52' Flybridge has an expansive side window along the length of the hull which allows natural light to illuminate the cabin spaces and grant beautiful views from every spot on the lower deck.

With customizable layout options, options are endless...
