Fuel: Gas/Petrol

Summary/Description

Featuring a 50ft / 15.24m concept yacht ready for purchase. Designed by Chaser Yachts, the custom yacht features 1 stateroom with accommodations for up to 2 guests.

Chaser Yachts was founded in 2016 with the aim of building and marketing top-quality yachts that stand out for their high degree of flexibility and functionality. The search for excellence in the development of these boats and their production has left nothing to chance. The innovative concept is a response to the growing demand for boats that are fully customizable and can be used for many purposes and in multiple ways. Exceptionally seaworthy and super-safe, the Chasers seamlessly marries luxury and styling with robust functionality.

Overview

All Chasers are built like a one-off we can offer you a genuinely unique proposition in the market – Chasers that are custom built-in every respect. From size to layout, from the standard of finish to propulsion, every part of your Chaser can be created to your very own requirements. The desires of current and future Chaser owners are our number one priority and we welcome any design challenge you might have in mind.

This boat is a boon for watersport fans. Thanks to its rapid acceleration and excellent maneuverability, every Chaser is great for water skiing, wakeboarding, and paragliding. It also features plenty of room for a wide range of water toys, including Seabobs, water skis, wakeboarding gear, and diving equipment. Swimmers and divers can easily get out of the water via the sturdy swimming ladder, which is included as standard.

The Chaser 500R is also very well suited for use as a superyacht tender. It can take people on board even in rougher seas, and the robust rubber tubes mean that it simply bounces off other boats. In addition, the Chaser 500R can easily sail through shallow water to drop passengers off at a beach club, for instance. It also serves as a perfect supply boat for superyachts as it is simple to tow and remains stable. The long-range means that the Chaser 500R can easily follow after a superyacht too.

Thanks to a range of 600 miles/1,000 kilometers, the Chaser 500R lends itself well to a wide variety of long and short trips. Safety is guaranteed even when children are on board thanks to the thoughtful layout design and walkaround. And the well-equipped galley, spacious seating area around the dining table, and lounge area on the foredeck means that the only ingredient missing for a true alfresco feast is the right people.

Exterior

- 'Dining' layout aft deck
- Stainless steel swim ladder
- Antifouling bottom paint
- Paintwork in preferred color(s)

- Black painted storage compartments incl. hatches
- Exterior lighting (dimmable)
