- New Steelhead crane cable
- New KVH satellite bracket
- Upgraded chart plotters, radar, new touch screen software, AIS, antennas
- New engine exhaust hose, clamps
- New AC pump

Remarks

"AfterMath" is a beautifully maintained 2007 Nordic Tugs, model 42/44 trawler with fly bridge, bow and stern thrusters and propane cooking appliances. Her configuration and brand screams "Quality" and owners who have spared no expense." They strongly believe in the adage, "pay me now or pay me later." Her hull and super structure shine. She features many upgrades, including her more expensive, no longer available, teak interior, which has been beautifully maintained. Her 540 hp Cummins and 11.5 kw Onan engine and generator have many years ahead of them with only 2,971 and 2,656 hours of use, respectively. Her new Vitrifrigo AC/DC refrigerator and wine cooler, Bose Lifestyle stereo system, KVH TV3 satellite receiver with TracVision H-10 DirecTV antenna offer expensive and coveted upgrades to the daily cruising life.

If you're planning to do the loop, cruise the Islands or the North American Coastline, you'll appreciate her 300 gpd water maker, Seagull water filtration system, upgraded fresh water pump, 20 bottle wine cooler, Phantom roll up/down door screens, Tank Watch upgraded 4-tank monitoring system, three zone air conditioning, convenient cockpit, port side and foredeck shore power connectors, electric windless, Magma propane grill, bow storage locker, equipment box in bow,

double anchor system at bow and additional safety and security features of the boat, which can be presented upon request. Pilothouse doors are conveniently located on both sides.

Your tender problems will go away with her 800 lb. Steelhead Hydraulic Davit system and IAB 10.5' dinghy with Yamaha 15 hp. outboard and new canvas cover. Finally, what could be more perfect than cruising warm weather ports in your fully equipped flybridge with Bimini, large sundeck, cockpit with aft gate and swim platform with ladder?

Built in the year just prior to the 2008 international economic contraction, which had such a large impact on boat manufacturers, the quality built into the Nordic Tugs of this era was exceptional. The four-year slowdown in new boat builds, which followed 2008, had a major impact on the used trawler market for boats under 15 years old. There just aren't many available! Finding a recent vintage Nordic Tug with a flybridge and with this quality is rare.

If you're in the market, this is one that you just can't let get away!

Please Note

Holding tank capacity is comprised of a black water tank of 45 gallon and a gray water tank of 20-gallons

Salon sofa converts to double berth (requires minor modification to salon table)

Exclusions

Bedding and towels

Clothing and personal care

Food and drinks

DVD's

Roku stick and remote

Phone and computer chargers

Shop vac
