Gato Blanco is an extremely well maintained, One Owner, Custom Catamaran Yacht that was 100% built and commissioned in the US. Originally built in the infamous yacht building state of Washington in 2012, an in-depth re-fit and re-power was done in San Diego in 2016 under the careful oversight of the well renowned naval architect Tim Nolan. Whether it's long-range cruising or serious Sportfishing Gato Blanco is an ultra-versatile yet comfortable platform. With 5 staterooms including an extremely large master, her catamaran hulls provide an ultra-smooth and stable ride underway or at anchor. Don't be fooled by the spacious and luxurious appointments Gato Blanco was built as a traveling sportfish yacht with an extensive range, incredible sea keeping, and an extremely shallow draft. She's fully rigged with a Furuno SONAR, hydraulic riggers, and an expert engineered Livewell/Tuna Tube system. Gato Blanco has been carefully maintained by the same owner and captain since day one and is in excellent condition.
