She is loaded and ready to cruise. Contact us today to schedule your in-person or virtual showing!.

## Walk-Thru

- **MAIN SALON:** The Prestige 550 has a large open and airy Main salon featuring large continuous windows from the aft glass opening bulkhead to the forward windshield and full lower helm station. There are electrically operated windows both port and starboard that provide fresh air and cross ventilation. The aft bulkhead is comprised of three sliding glass doors that convert the inside to the outside. The aft situated galley is perfectly located to be able to serve directly to the cockpit and keep the chef in touch with the family and or guests.
- **GALLEY:** The galley offers a 3 burner ceramic cook-top, microwave/convection oven, stand-up refrigerator and freezer, stainless steel sink, and generous storage in cabinets above and below the counter space. Opposite the galley is additional storage and counter space. A little further forward opposite the galley is the private staircase to the full-beam master stateroom. Up a short step brings you to the main seating area with a couch to starboard and a long L-shaped couch/settee to port including the dining table. The dining table is expandable from a cocktail table to a full dining table. There is also a matching upholstered chair forward effectively making this a U shaped seating area, plus two upholstered round seats that can provide additional seating.
- **LOWER HELM STATION:** Forward of the galley, with a comfortable double bench seat. Two large E-125 color display screens for radar and chart-plotter functions, autopilot control, AIS receiver, VHF radio, Pod joystick control, and full electronic engine displays. Sightlines are very good from this station with a 360-degree range.
- **MASTER STATEROOM:** From the main salon access is provided to the master stateroom by a private staircase. The master is full beam and very spacious. There are large rectangular port-lights/windows in the hull side providing this mid-ship stateroom with great views of the outside surroundings. There are circular opening ports in each window providing fresh air and cross-ventilation when conditions are suitable. There is a desk/makeup area with opposing seats to port, nightstands at either side of the bed, plenty of storage in cabinets, drawers, and a large walk-in closet. There is also a 32" flat screen TV on the forward bulkhead. The en-suite head has easy care wood floors, a stall shower with a teak grate and glass door, exhaust fan, electric head, ceramic sink, mirrored cabinets over and drawers and storage under the counter.
- **GUEST STATEROOMS:** Accessed by a staircase down from the forward salon area. The large VIP stateroom is forward and has a walk around pedestal bed, 23" flat-screen TV, an overhead hatch for natural light and ventilation, and large side windows as well. There are reading lights on either side of the headboard. Overhead LED lights and a continuous lighting band along a ceiling feature provide plenty of light when desired. Storage is provided in a good-sized hanging locker and drawers outboard on either side of the bed. There is a private access

door to the guest head which has wood floors, a ceramic sink, an electric head, and a walk-in stall shower with a glass door. The double guest stateroom is off the central landing on the port side and has two lower berths, a large rectangular window with an opening port insert for fresh air, and a large hanging locker.

- **COCKPIT:** The 550 has a large cockpit making it a great area for lounging, entertaining, or dining. There is a large bench seat with a teak dining table and there are two optional teak chairs for 5-6 to dine here. There is an optional docking station to starboard with the Zeus joystick control and the bow thruster control for maneuvering in close quarters. On the starboard side, there is a walkway and steps down to the hydraulic swim platform. Access to the Captain's cabin is under the bench seat. Aft mooring electric windlass, hot and cold pressure shower, protective cushion covers for bench seat and sun pad forward as well as for cushions and consoles on the flybridge.
- **FLYBRIDGE:** The flybridge is expansive with a sun pad forward and an L-shaped aft seating area with a dinette table giving a third option for where to dine on this yacht. The flybridge is also equipped with an electric grill, refrigerator, and sink with pressure water. The helm has one E 127 color screen which can run and display both chart plotter and radar separately or together on a split-screen. There are Cummins electronic controls & displays, a VHF radio, and the Zeus drive control/joystick. There is a double bench seat for the helmsman and companion. There is also a bimini that can provide shade for this area.
- **FOREDECK:** There is a large sun pad forward for relaxing, electric anchor windlass, and good walkways with railings and good handrails to make going forward safe and comfortable.
