Holding Tank: 120 gal (454.25 liters)  
Builder: Offshore Yachts  
HIN/IMO: OSH62035J001

## Engines/Generators

### Engine 1

Caterpillar  
3406E  
Inboard  
800HP  
Fuel: Diesel  
Year: 2001  
Location: Port

### Engine 2

Caterpillar  
3406E  
Inboard  
800HP  
Fuel: Diesel  
Year: 2001  
Location: Starboard

### Generator 1

Panda  
12KW

### Generator 2

Panda  
22KW

## Summary/Description

MIMI is a 2001 Offshore 62 Flush deck Motoryacht. Her four-stateroom layout, spacious walk around side-deck design, walk-in stand up engine room, CAT 3406 engine package and overall high build quality puts MIMI atop the best buy list in this competitive category of boat.

If you are seeking space, quality, and value; please contact today and visit MIMI in Fort Lauderdale. New to the market.

## Offshore Flushdeck

Offshore Yacht's flushdeck 62 motoryacht is unique because this boat includes a handful of key features rarely found on a 62' boat.

This Offshore flushdeck offers:

- Four staterooms. The Master stateroom, with walk around King size bed, is located aft. The VIP cabin on this boat looks like the typical Master stateroom found on average boats in this class.
- Full walkaround side decks. There is no teak found on the exterior of MIMI.
- Walk-in engine room. The engine room access is superior to other boats in this size range. Found opposite the Master Stateroom, the walk-in engine room is a feature rarely found on a 62' boat. The stand-up space is easy to work in.
- Stand up lazarette, is located beneath the aft deck, where you would normally find the engine room hatch.
- This space is impressive, ample room for gear.
- The stabilizer fins and side thrusters are hydraulic.
- Twin generators.
- Huge flybridge.
- Yacht Controller.
- Flushdeck layout makes for a spacious main deck.

## 62 Flushdeck History

Offshore Yachts built a handful of flushdeck yachts. The factory added a Euro style transom to the successful Offshore 58' hull. Adding the extension made space for the large Lazarette found beneath the aft deck. The Euro style transom design ensures getting to and from the swim platform is as easy and safe as possible. Check out this Boating World article from 1996 for their review on the Offshore flushdeck. Offshore 62 – Boating World.

## Construction

- Hand laminated bi directional fiberglass reinforced with vacuum bagged corecell in hull & structural areas above the waterline.
- Uni-directional laminates at engine stringers & hull door openings.

- Double laminations at chine, keel & running hardware locations.
- Four full length longitudinal engine stringers & athwartship reinforcing stringers as per design.
- Cored 1 1/4" main bulkheads padded at hull & bonded.
- Hull to deck connection mechanically fastened & bonded.
- Vinylester hull laminate for osmosis protection.

## Design Features

- Deep & finely veed forefoot.
- Low silhouette & center of gravity.
- Flared bow section with radiused spray chine.
- Full walk around decks with deep bulwarks.
- Covered side decks.
- Port and starboard hull doors.
- Molded upper & lower rub rails capped with solid. stainless steel trim rail.
- Large low windows for sit down visibility.
- Molded fiberglass window frames, doors & hatches.
- No exterior aluminum.
- #316 grade stainless steel.
