1360HP
Fuel: Diesel

Engine 2
MAN
Inboard
1360HP
Fuel: Diesel

Summary/Description

Of all the boat brands in the world, Riva is one of the few regarded with awe, respect, even reverence.

Of all the boat brands in the world, Riva is one of the few regarded with awe, respect, even reverence. In its 160-plus-year history, the Italian yard has created some of the most elegant and beautiful designs on the water, each so lovely that passengers sometimes feel a sense of privilege sitting in the cockpit. In addition to looks, the brand is known for best-in-class engineering, construction, and craftsmanship.

The highlights of this Mediterranean-styled yacht are the big outdoor spaces at the bow and in the cockpit, designed for people who are drawn to boating for the sheer joy of feeling the wind, sun, and spray in their faces while traveling from port to port. There's a good deal of thrill to be experienced, too, as this yacht is powered by twin 1,360-hp MAN engines.

Manufacturer Provided Description

With this yacht, Riva has reinterpreted the concept of an open yacht characterized by a typical Mediterranean style while preserving the unmistakable elegance of the entire range: class, charm and a sober look. Designed with an eye to the outer lines of the Vertigo - a very successful classical model in Riva's range - the 63' Virtus also draws inspiration from the Rivale's strong personality, while also ensuring more spacious areas that guarantee excellent livability and total onboard comfort. This last-generation open craft has been conceived as a sporty yacht, created for an Owner that wants to experience the sea first-hand.
