## Summary/Description

One of Tiara's best boats the 5200 does it all well. Solid construction, diesel power by Caterpillar, and great cruising capability/comfort provide strong value either day tripping or extended cruising. Possibly the best maintained 52 Tiara. This boat has had two owners who both provided above average care at a local Tiara dealership known for their competence. This is truly a New England boat stored inside and covered during the winter season.
