Summary/Description

The Ocean Craft Marine Transport and Tour 9.5M is a rigid hull inflatable boat with USCG Sub-Chapter T certification.

Customizable Boat: Stuart

The Ocean Craft Marine Transport and Tour 9.5M is a rigid hull inflatable boat with USCG Sub-Chapter T certification. With a recommended power of 400 HP and 700 HP maximum, the 9.5M Transport and Tour travels at speeds up to 65 knots. This tender is suitable for transporting guests, sightseeing tours, eco-tours, dive excursions, or as a commercial crew boat with up to 15 PAX.

Available as an option are fully-retractable amphibious wheels. The amphibious capabilities allow direct beach access and the ability to traverse various terrains. Drive directly onto the beach, up to a beach house, or onto a boat ramp without a trailer. This unique design requires only one operator, as no anchoring or trailering is necessary.

The OCM RHIB hull is designed with a reverse-chine to deflect sea spray for a dry ride. This design also increases lift and speed while reducing fuel consumption. The Transport and Tour delivers a smooth, stable ride along with agile maneuvering capabilities.

Highly customizable, the Transport and Tour 9.5M is available with many different layout options and features. Choose from air or foam filled tubes, an aluminum or fiberglass hull, a T-top, a Bimini top, bench seats, jockey seats, leaning posts, bucket seats, shock mitigating seats, console options, cabin options, a self righting frame, or bow and stern posts.

We're proud to showcase Ocean Craft Marine at all our Florida showrooms, including:

Ft. Lauderdale, Palm Beach, Stuart, Sarasota, and Tampa Bay.

Options

- Fiberglass Hull
- Aluminum Hull
- Air Filled Tubes
- Foam Filled Tubes
- Outboard Engines
- Inboard Engines
- Amphibious Capabilities
- Bucket Seats
- Bench Seats
- Jockey Seats
- Leaning Posts
