Summary/Description

M/Y Don Ciro is a Benetti 105 SD which was built in 2002 by the Benetti Sail Division with a steel hull and aluminum superstructure. The classical design onboard and long-distance cruising capability makes her very attractive for new adventures and creating memories onboard.

The main saloon features comfortable seating and dining table for 10. Accommodation onboard is for up to 10 guests in 4 comfortable staterooms, including a Master cabin, VIP cabin and two guests cabins, all equipped with ensuite bathrooms. There is additional accommodation for up to 6 crew in 4 crew cabins. Comfortably cruising at approximately 10 knots, the yacht is reaching a maximum speed of 14 knots. Equipped with underway stabilisers, she has a range in the region of 5,500NM. Powered by 2x Caterpillar C3412E Engines, M/Y DON CIRO is also equipped with generators Kohler 45kW and Onan 45kW.

Her current owner had an extensive two-year refit carried out in 2018/2019, where a total renovation of her hull, machinery, interiors, equipment and electronics were done. She was also completely repainted with Awl Grip paint and her owner used her privately to conduct his own checks on her performance and all completed refit works. She has commercial certification and is flagged in Malta.
