298.28KW
Fuel: Gas/Petrol

Engine 3

Mercury Verado
V10 Verado's White
Outboard
400HP
298.28KW
Fuel: Gas/Petrol

Summary/Description

Preliminary Listing - Images are of a sister Yellowfin and new images are coming soon.

These specs are of the actual 36' Yellowfin that will be delivered in less than 2 months.

The 2025 Yellowfin 34 Offshore is a center console fishing boat designed for both serious anglers and recreational boaters. At 34 feet, 8 inches long with a 10-foot beam, it offers a good balance between maneuverability and fishability.

The 34 Offshore's signature feature is its Yellowfin designed twin-step hull. This innovative design allows the boat to handle rough offshore waters with a dry ride, while still offering the nimble handling of a smaller vessel. This translates to a comfortable ride for everyone on board, even when conditions get choppy.

Powering the 34 Offshore are triple Mercury 400 V10 Verado outboard engines. This gives the boat plenty of power to reach fishing spots quickly and efficiently. While exact fuel consumption will vary depending on engine configuration and sea conditions, boats typically cruise at around 40 miles per hour.

For anglers, the 34 Offshore boasts features that make it a dream fishing platform. A massive transom livewell keeps baitfish healthy throughout the day. The 34 Offshore is equipped with all the standard fishing amenities you'd expect, including rod holders, fishboxes, and a leaning post with a built-in tackle station.

The 34 Offshore isn't all about fishing functionality though. The center console features a new design with a full liner and a drop-down area that can comfortably fit a marine head. The unlisted capacity suggests there's plenty of space on board for friends and family to relax in comfort while you head out for a day on the water.

Enhancements and Convenience

- Bow Thruster
- Electric Anchor Puller - Drum Style (no anchor)
- SS Plow, 475' Rope, 20' Chain for Windlass
- Tow Eye Package
- Powdercoat Bowrails
