Summary/Description

Pictures are of sistership actual pictures are coming soon!

These specs are of the actual 36' Yellowfin that will be delivered in less than 2 months.

The 2025 Yellowfin 36 Offshore reigns supreme as one of the most popular models in Yellowfin's lineup, and for good reason. This 36-foot, 8-inch center console fishing boat excels at battling offshore chops, thanks to its twin-step hull design that delivers a perfect blend of balance, efficiency, and a characteristically dry ride.

Power comes from triple Mercury 400 V10 outboard engines offering up maximum horsepower. This gives the 36 Offshore the ability to cut through waves while still offering excellent fuel economy thanks to its efficient design.

The 10-foot beam provides ample space on deck for anglers to move around comfortably, fight fish, and set up gear. This Yellowfin offers numerous options to perfectly suit your fishing style. Whether you're a seasoned tournament angler chasing tournament billfish or a weekend warrior heading out with family for some mahi-mahi, the 36 Offshore can be tailored to your needs.

With its reputation for speed, rugged construction, and a comfortable ride, the 2025 Yellowfin 36 Offshore is a versatile fishing boat that can handle whatever you throw at it, from offshore tournaments to laid-back family adventures.
