"Getaway" is a clean well kept Leopard 46. Arguably the best catamaran ever produced by Leopard Catamarans. Designed in collaboration between Architects Morrelli and Melvin and Robertson and Caine, the Leopard 46 (4 Cabin Layout) is a blue water cruising catamaran that combines spacious living accommodations, high-quality construction, and great performance. The Leopard 46 is fully equipped with twin Yanmar 54hp engines, full electronics, a generator, and air conditioning as standard. The raised helm station, open to the cockpit, is situated in the extended hardtop roof, covered by an additional hardtop, and has all controls led aft, for excellent visibility and ease of maneuverability. The Leopard 46 configuration features four (4) air-conditioned private staterooms with en suite heads and showers, plus an additional 2 forepeak berths, a fully fitted modern galley, and a full-size navigation station in the saloon. The signature "walk-through" access to the roomy cockpit and seating/aft folding bathing platform, connecting the two transoms, completes this exciting new model. Solar panels have been fitted to the hard top to increase battery life and reduce battery waste.
