Summary/Description

Built on a solid fiberglass modified-V hull, the two-stateroom floorplan is arranged with a mid-level galley and dinette and double berths in both staterooms. This is a huge interior for a 35-footer, and the salon dimensions can easily be compared to those of a much larger boat.

Built on a solid fiberglass modified-V hull, the two-stateroom floorplan is arranged with a mid-level galley and dinette and double berths in both staterooms. This is a huge interior for a 35-footer, and the salon dimensions can easily be compared to those of a much larger boat. Both heads are fitted with separate stall showers, and the galley has plenty of counter space and storage. An aft-deck wet bar was standard along with a hardtop, and there's seating for six on the flybridge.

(Note that this is the same flybridge mold used for Silverton's 351 Sedan.)

Additional Features Include:

- Curved staircase from the swim platform to the aft deck and a spacious engine room
- Big-block 320hp gas engines cruise the 352 at 16 knots (mid 20s top)
