Power Boat Guide Description

Power Boat Guide Description:

Introduced in 2002, the Sea Ray 360 Sundancer was a cutting-edge boat in her day with aggressive styling and luxury-class amenities—an impressive mix of performance and comfort, albeit at an upscale price.

Built on a deep-V hull with moderate beam, the Sundancer's midcabin interior gets high marks for its quality furnishings and fixtures. This is a comfortable layout with plenty of storage, a built-in entertainment center, a plush Ultraleather lounge, and excellent headroom. A two-part pocket door provides privacy for the forward stateroom, and both the salon sofa and midcabin lounge convert easily into double berths.

At the helm, a bucket seat with a flip-up bolster allows for standup driving and there's space in the tiered, burlled dash for electronics. Engine access is excellent; the entire cockpit floor rises on hydraulic rams to completely expose the motors and V-drives.

Additional features include an extended swim platform, an underwater exhaust system, transom storage locker, and cockpit wet bar. MerCruiser 370hp V-drive gas engines cruise the 360 Sundancer at 18 knots and reach a top speed of 30+ knots.
