Manufacturer Provided Description

The Carver 396 Motor Yacht is striking and spacious. By raising the gunnels, Carver has opened up the cabin, stretching it the full width of the 13-foot 11-inch beam. Because the salon, galley, and dinette are all part of one "great room" concept, guests are given the freedom to roam. Plus, the two-tiered window system provides perfect line of sight outdoors, whether seated on the plush salon furniture, or while preparing meals in the fully equipped, casually sunken galley.

Below deck, the aft master stateroom has incredible amounts of storage, a queen-size, inner-spring island berth, and a private head complete with separate head and shower compartments. The forward guest stateroom has a queen-size island berth with an inner-spring mattress, and a split head arrangement with separate shower and water closet.

When it's time to spread out, passengers will appreciate the approximately 73-square-foot aft deck protected by standard wing doors, a hardtop, and a weather cloth that's molded right into the deck. And, an integral stairway leads to the yacht's command bridge with seating for six, and a centerline helm for maximum visibility. A wetbar with available refrigerator or icemaker helps make this bridge and aft deck the perfect entertaining platform.
