Engine 1

Honda

Outboard 4 Stroke

60HP

Fuel: Gas/Petrol

Year: 2023

Summary/Description

In Stock and ready for delivery! This was our in-showroom display. This boat has never been in the water. Brand New Honda 60 just installed this fall.

A 16 ft deep-v hull boat is a perfect choice for anyone who wants to enjoy time on the water with their friends and family members. The smallest RIB in the Navigator series, the Navigator 485 can pull double-duty as a tender and or family fun boat!

Overview

While the Navigator 485 shares some features with its larger Navigator siblings, the vessel has several touches that are uniquely its own. Like the other RIBs in the Navigator lineup, this 16-foot rigid inflatable boat has a beam that measures 7 feet and 7 inches. It also features the square bow and extra-wide tubes that enable every RIB in the Navigator series to provide a stable, smooth ride every time you're behind the wheel.

The Navigator 485's eye-catching red upholstered seats — which are visible from the sides, front, and back of the boat — set the RIB apart as a premier vessel. This vibrant upholstery contrasts nicely with the boat's gray and white exterior and interior. With comfortable seating in the bow, stern, and in front of the console, the Navigator 485 can accommodate up to eight adult passengers in style.
