Summary/Description

Hampton Yachts are known for superior performance by way of quality construction, fuel-efficient cruising, redundant systems and luxurious interior spaces. The Hampton 830 Euro was designed by world renowned J.C. Espinosa. J.C. Espinosa is well-known in the yacht industry and has won awards for his work

Hampton Yachts are known for superior performance by way of quality construction, fuel-efficient cruising, redundant systems and luxurious interior spaces. The Hampton 830 Euro was designed by world renowned J.C. Espinosa. J.C. Espinosa is well-known in the yacht industry and has won awards for his work on boats from Horizon, Feadship, Delta Marine, and many others pedigree builders. The 2014 Hampton Euro 830 Skylounge is nothing like you have ever seen from the traditional Hampton motor yacht lines, rather a very sleek and European look. Some of the most desirable and liked features are the open aft area of the flybridge and the addition of the skylounge. Built for formal entertaining and family cruising, the Euro 830 offers gracious interior and exterior entertaining areas. The air conditioned skylounge gives owners and guests spectacular views and offers amenities like a wet bar (sink, refrigerator, and ice maker), 40" flip-down television, teak table, a Fusion stereo, and plenty of seating. The large area aft of the skylounge offers an Aritex 1,600lbs davit, BBQ grill, area for the dinghy and lounging when the dinghy is launched. There is both an interior staircase leading to the main deck and a staircase aft that leads to the lower aft deck.
