V12 Verado
Outboard
600HP
Fuel: Gas/Petrol

Engine 4

Mercury
V12 Verado
Outboard
600HP
Fuel: Gas/Petrol

Summary/Description

Manufactured for the unforgiving waters off the North Carolina coast, Mystique honors the legacy of the expert boat builders for which the region is known and the Creator responsible for its beauty.

Designed to be fast, comfortable, and truly custom, the first Mystique Boatworks 48 Center Console is now available for order. Mystique is a new name in North Carolina custom boatbuilding, but the designers and engineers have a long history in the industry and a pedigree for success. They have pooled their experience to create a revolutionary new center console that will take the large center console market to the next level.

Hull #1 of the Mystique 48 CC is currently being built in Beaufort, North Carolina using a technologically advanced cold-molding process. Thoughtfully designed convex curvature and a 19-degree deadrise in the hull will diffuse contact with the water while running, which will give this boat an incredibly soft and comfortable ride. It is purpose-built for fishing and will have a large cockpit with a pair of in-deck fishboxes totaling 200 gallons of storage, an 80 gallon livewell, dive doors to port and starboard, and a mezzanine bench. Moving forward, there will be plenty of space for three helm chairs, a full array of electronics, a forward lounge, and bow seating on both sides. The air-conditioned interior will include a galley, a sofa, full bed, and a head and shower.

The Mystique 48 CC can be customized to the owner's tastes with options such as a Seakeeper, ice maker, tower, bow thruster, and more. The boat will be powered by 600hp Mercury V12 Verado outboards, which can be added as either triples or quads. Initial projections show top speeds well over 60mph with the 2,400hp quad configuration.

For more information about the first Mystique 48 CC, please contact a Bluewater Yacht Sales specialist at 877-269-3021.

Features and Options

INSTRUMENTATION

Tachometer : Standard
