When you step aboard the aft deck of BELLA VITA and enter the salon of this pilot house motor yacht, you will be very impressed by the beautifully finished mahogany woodwork in the salon, overhead and throughout the vessel. You will note the intricate wood inlays in the mahogany doors.

Beyond the spacious salon and up a few steps is the galley to port and lower helm forward with access to the port side deck and small folding table to starboard. Down a circular companionway are the two guest cabins with a common head/stall shower.

Forward to starboard in the salon is access to the master stateroom with walk around queen-sized berth and en-suite head with stall shower to port.

The teak decked swim platform features the passerelle which double as a davit for the RIB on the swim platform. Access to the engine room is through the deck.

The flybridge is accessed by ladder from the aft deck and inside from the lower helm. That area is covered with a Bimini top and radar arch. Behind the helm cushioned seat are an L-shaped cushioned seating area with table. To starboard is a cabinet with a sink and refrigerator.
