Fuel: Diesel

Summary/Description

-

OVERVIEW

MIRABELLA was built in 2004 as hull T028 by the well-known Trinity Shipyard. In 2012 she received a major refit at the Trinity shipyard, which included redesigning of the sun deck, cutting down bulwarks on the main deck for improved views from the dining and main salon areas, and wood flooring throughout the main deck and skylounge areas. In 2019 she completed her 15-year ABS special survey and in 2021 her main engines were completely rebuilt. Other features:

1. Updated interior
2. Trusted brand name
3. Popular charter yacht
4. Shallow draft for Bahamas cruising
5. Quantum Zero speeds stabilizers
6. Oversized swim platform allowing easy access to the water

WALKTHROUGH

The 157-foot (47.9m) Trinity charter yacht MIRABELLA is the epitome of luxury, comfort and class.

The outdoor living spaces aboard MIRABELLA allow guests to live the best of the alfresco lifestyle. The sundeck is the social hub of the yacht where guests can spend days soaking in the sunshine, relaxing, socializing and taking in never-ending views of the destination. MIRABELLA's sundeck features a Jacuzzi surrounded by sun pads, a lounge area shaded by the hardtop, and aft sun loungers. There is an amazing bar in the center of the deck facing both forward and aft, half of the bar area is covered by the hard top. A day head is located on the starboard side under the hard top. The stairs on the starboard side aft lead down to the bridge deck level aft. This entire level is finished with teak decks.

On the next level down, forward of the wheelhouse, is a large settee for guests to visit and teak flooring. The captain's cabin is aft of the bridge on port side with full ensuite facilities, and an additional dayhead can be found on the starboard side. The sky lounge is full beam with extremely large windows allowing for fantastic views and natural light to enter the area. Port side forward is a full-service bar with a nearby game table. On the starboard side is a writing desk, large L-shaped settee, two ottomans and chair. A large 55" TV sits on the wall for entertainment. Floors are finished in hard wood and the aft wall is all glass with two very large sliding glass doors to access the amazing upper aft deck. Outside in the center is a circular varnished teak table and chairs for seating 10 persons. On the port and starboard sides of the table are buffet serving areas. Wrapping around the very aft section of this area is a large settee for guest relaxation, partially protected from the sun. On the starboard side is a staircase leading upward to the sundeck while there are stairs to the lower deck aft on the starboard side.

MIRABELLA showcases a timeless, elegant interior that will make guests feel at home. Designed by Scott Carpenter, the interior is adorned with dark woods and contrasting light fabrics and accents. Ideal for entertaining, her interior is spacious and features excellent entertainment systems.

MIRABELLA welcomes up to 12 guests in the plush comfort of five beautifully appointed staterooms. The yacht showcases a stunning full-beam master suite that is a private haven located on the main deck. The full beam master suite features a king berth, two full-size, walk-in closets, a lounging couch, makeup vanity and a nearly full beam master bath with two wash basins, his and her water closets, walk in shower and full-size bathtub with a view. Huge port lights on both port and starboard sides of the master suite offer fantastic views and fill the room with natural light. Moving

further aft, one finds the owner's office which is separated from the main foyer by double doors.

After leaving the owner's suite in the main foyer there are stairs going both down to the lower deck guest cabins and up to bridge deck level. Also, in the foyer area is the main deck guest day head and access to the galley.

On the lower level, are four guest staterooms, which include three double staterooms and a twin-bed stateroom with a Pullman. Additionally, the forward guest stateroom can convert into a spacious full-beam VIP suite. Four guest cabins are located on the lower deck. Both the port and starboard aft cabins are nearly identical, aside from the starboard cabin featuring a bathtub and port offers a walk-in shower. Both have double sinks in the head, hanging closets and double size berths. The port forward guest cabin has en suite head with shower, and single wash basin. Double berth and hanging closet. Starboard side forward guest cabin offers twin beds, a Pullman berth and trundle. En suite head offers shower and single wash basin. This cabin has a removable wall space that can be opened allowing the port and starboard forward cabins to become a suite with two heads; perfect for families with smaller children or for guests on an extended stay.

Back up on the main deck, you enter the dining and main salon from the stairwell foyer. MIRABELLA's main salon features a large seating area with a TV and formal dining forward. This space is very open, connecting the dining area to the main salon, creating a seamless flow which is perfect for entertaining. There are ten massive windows on port and starboard side which help bring the "outside in". The dining area is designed for ten guests. There is plenty of space for China storage. The center of the main salon is a social gathering point and features two 55" TVs and a nearby full-service bar. The entire main deck has been finished with hardwood floors. Again, the main deck bulwarks were lowered to increase the view out of the main salon and dining room windows.

The outdoor main deck aft on port side features a full-service bar. There is a central area for seating eight and is the perfect place to greet guests or prepare for the day's activities. From the aft deck are double staircases allowing easy access to the massive swim platform at water level. The starboard side is access to the passarelle for boarding when tied stern to the dock.

CREW

The crew cabins are forward, but not connected to the guest spaces. As you come down the stairs to port there is the crew lounge and dining area, to starboard is the laundry. There are three crew cabins, each with upper and lower berths, all offering en suite heads. All the way aft and entered via the swim platform is the Engineers cabin, which has a double lower berth and upper single berth. To the port of the engineer's cabin is a fully out fitted workshop and vessel monitoring area.
