## Summary/Description

The new Predator 65 benefits from the latest Volvo Penta IPS-1200 or IPS-1350 offering enhanced performance, comfort, efficiency and manoeuvrability. Complete with joystick control and 35-knot capability, she will provide an exhilarating, one-of-a-kind driving experience in well-appointed surroundings.

Externally there are two distinct entertaining areas; a bow seating area complete with a large sunpad, and a broad cockpit with comfortable dining seating. Aft, the open-plan space can be designed to the owner's exact requirements. Furniture options include comfortable seating backed onto a large sun pad over the garage and a social bar unit with matching stools on the port side, a fully integrated wet bar or extended J-shaped lounge seating running aft from the galley across the width of the cockpit. The multiplicity of arrangements and furniture configurations available offer space and flexibility for a family or a group of couples.

Below deck, the three-cabin layout provides accommodation for up to six guests. A spacious, full-beam master stateroom features a generous en-suite, while the thoughtfully designed forward VIP cabin provides an equally comfortable haven for guests. Each guest cabin has an en suite, and there is a separate day-head below. Optionally, an open-plan Owner's Office linked to the master stateroom, a single-berth cabin, lower deck galley or saloon can be specified, delivering flexibility for any owner.

An extra-wide tender garage allows a Williams 345 jet tender to be carried and launched via a new diagonal sliding hydraulic bathing platform. The additional garage space can store SeaBobs, inflatable paddleboards, diving equipment or racking. If specified as a Beach Club, the fully-flush floor lends itself to free-standing furniture with a rain shower, lighting and speakers built in to the opened door.
