Summary/Description

Peerless performance, exceptional agility and electrifying interiors, the striking new Superhawk 55 is the latest luxury performance model delivering the ultimate open-top boating experience.

Reaching a top speed of up to 38 knots, courtesy of twin Volvo Penta IPS 950 engines, the Superhawk 55 reinvents an iconic Sunseeker sports cruiser. With contemporary proportions, luxuriant outdoor social spaces and generous interior accommodation, the Superhawk 55 is suited for day cruising or weekends away, offering unparalleled user flexibility. An eye-catching exterior is matched by equally lustrous interior appointments and features. The aft cockpit is designed with a central large wet bar and several furniture configurations to make the most of the spacious deck. Steps lead down to a highly luxurious open plan lobby and galley area sat beneath LED lighting. Further recessed lighting, curved wood and lacquer finishes all contribute to the premium feel that truly delights those who step on board. The light floods through from the expansive screen above and electrically operated blinds allow intimacy and shade when needed. Forward is a VIP cabin with en-suite, upholstered side units and a wardrobe unit to port. There is a large bed and the interior comes with different styling palettes throughout to give a customized and personal feel to every owner. Aft is the Master cabin with sliding berths to generate either a double or two singles and generous en suite. Black lacquer panels frame this main cabin creating an ambiance that is pure indulgence. The Superhawk 55 offers a taste of luxury and the thrill of speed and agility to all those who experience her.
