Data Sheet

Category: Motor Yachts
Subcategory: Flybridge
Condition: Used
Model Year: 2018
LOA: 57' 2" (17.42m)
Cabins: 3
Sleeps: 6
Twin Berths: 2
Queen Berths: 1
King Berths: 1
Full Beam Master: Yes
Heads: 2

Captain's Quarters: Yes
Crew Sleeps: 1
Maximum Speed: 31.5 Knots
Cruise Speed: 25 Knots
Fuel Type: Diesel
Hull Material: FRP
Air Conditioning: Yes
Bridge Clearance: 15' 6

Dry Weight: 59525 lbs
SeaKeeper: Yes
Fuel Tank: 660 gal (2498.37 liters)
Fresh Water: 188 gal (711.66 liters)
CE Certified: Yes
Classification: CE A
Imported: Yes
Builder: Ferretti Yachts
HIN/IMO: XFAF55241718

With the rare originality of her hull design, her stunning interior layout and the arrangement of her engine rooms, the Ferretti Yachts 550 combines elegance, practicality and seductively beautiful lines.

The wraparound glazing on deck slices through her profile for added panache. The three large hull windows blend perfectly into the overall look, bathing the cabins in natural light and opening up superb views from inside.

Portholes are inserted flush in the glass with no fiberglass frame, for a supremely clean aesthetic look.

The lowered flybridge and the new forward lounge area on the wheelhouse offer fabulous al fresco spaces to relax in total privacy, without disrupting the yacht's flowing lines.

With a winning blend of amenity and finesse, the 550 is a yacht whose appeal is set to endure.

Electronics

- Depthsounder
- Radar
- TV Set
- Navigation Center
- Plotter
- DVD Player
- Autopilot
- Radio
- Compass
- CD Player
- GPS
- Cockpit Speakers
- VHF

Mechanical Equipment

- Seakeeper
- Bow Thruster
- Hydraulic Platform

Inside Equipment

- Oven
- Microwave Oven
- Marine Head
- Air Conditioning

- Heating
- Water Heater
- Refrigerator
- Battery Charger
- Electric Bilge Pump

Manufacturer Provided Description

The Ferretti Yachts 550 is the result of the cooperation between AYT&D, the Group's research, development and style department, and Studio Zuccon International Project. It is characterised by a brand-new hull, and equally brand-new are the layout of the engine room and that of the main deck, as well as the interior arrangement. In addition to this, special care has been devoted not only to guaranteeing maximum production efficiency and effectiveness, but also to optimising the yacht's weight balance, thereby ensuring great performances even if small, light and low-consumption engines are installed.

The profile of the boat is characterised by sober, streamlined, slender lines, blending together refined elegance and a sporty character. The uninterrupted glazing running across the main deck further enhances the boat's rakish profile, and is complemented by a large, aerodynamic flybridge. Three large glazed surfaces - the cabins windows - can be found on both sides of the hull. Each has flush frameless fibreglass portholes resulting in very clean lines.

This yacht's interior spaces and onboard equipment allows it to be on an equal standing with much larger yachts.

Many outdoor relaxation areas have been conceived: the forward dinette area, furnished with facing sofas and a table; the large sunpad on the deckhouse; and the cockpit, featuring a large aft sofa and a table. On the flybridge, the storage cabinet and the restyled, small-size pilot station instrument panel allow to extend the relaxation areas - both the sunpad and the comfortable dining area - even more.

The Group's Centro Stile has found very appealing decor solutions, adding elegance to all onboard ambiances and preserving the range's unique Made-in-Italy style and charm. The cockpit and the aft area of the salon stand out for an impressive décor consistency. Indeed, the teak flooring found in the cockpit continues indoor, in the galley and the entrance, visually and 'physically' harmonising these different environments. This flawless continuity is also ensured by the new three-section glazed door that can be folded to starboard and concealed behind the stairs leading to the flybridge. The perfect harmony between form and content, aesthetics and functionality is completed by the ceiling panel decoration, which is the same in the salon and outdoor, creating as a sort of 'style mirror' that welcomes all guests at best. The cockpit thus becomes an extension of the interiors, which can be opened completely onto the sea on all sides.
