Summary/Description

The newest yacht from the highly experienced and multi award winning builder Gulf Craft, the custom 54m Majesty 175 is currently under construction in the United Arab Emirates, her bold profile and chic interior both hail from the drawing boards of Italian design studio Cristiano Gatto. A voluminous design expertly incorporates a seven cabin layout complete with private owner's suite on the upper deck and VIP accommodation located on the main deck. Enlarged windows and increased levels of light create a modern ambiance throughout the yacht and ensures full interaction with the outside environment. This feeling of space is further reinforced by the foredeck swimming pool, beach club and main deck gymnasium. Developed as a direct result of the successful Majesty 155, the 175 has utilized the proven hull platform with the addition of enhanced qualities resulting in a larger vessel with a trans-Atlantic capability and over 4,000nm range.
