Model Year: 2023

LOA: 44' (13.41m)

Knots

Knots

Fuel Type: Diesel

Hull Material: Fiberglass

Engines/Generators

Summary/Description

For Sale

HIGHLIGHTED BY A NEW GALLEY LAYOUT AND A MORE GENEROUSLY SIZED FLYBRIDGE, the newest Kadey-Krogen model, the Krogen 44' AE, is built on and inspired by the success of the Krogen 48' AE introduced in 2011. The new Krogen 44' AE replaces the Krogen 44', which had 26 hulls launched and was itself a breakthrough model that succeeded the venerable world traveler, the salty, seakindly classic Krogen 42' originally introduced in 1977.

The Krogen 44' AE is the result of a careful collaborative effort between owners, prospective owners and the Kadey-Krogen in-house design team lead by naval architect Dave Glasco. There are more than 50 ergonomic and technical changes that differentiate the Krogen 44' AE from her predecessor. Advanced ergonomic highlights include full walk-thru cockpit boarding doors, walk-in engine room access, an available companion seat next to the helm chair on the flybridge plus an L-shaped settee with a table perfect for entertaining, and the galley's new four-burner Viking range and an 18-cubic foot refrigerator that opens to port for the chef's convenience. LED lighting and a new engine room ventilation system utilizing intake and exhaust axial fans with moisture eliminators headline a substantial list of technical upgrades.

Select from several spacious guest stateroom layouts: a den/office arrangement, a dedicated queen berth suite, or "Jack and Jill" berths for the grandkids. Kadey-Krogen provides flexible options for the guest stateroom so owners may configure the space to best fit their lifestyle and cruising plans.

In the new Krogen 44' AE, every detail has undergone careful scrutiny. Some changes are significant and obvious and others are more subtle or behind-the-scenes. But, each change is driven by customer input and the resulting exciting new look and greater utility reflected in the Krogen 44' AE will be appreciated by those who understand and embrace the cruising lifestyle.

Since the first Kadey-Krogen was launched in 1977, our yachts have confidently cruised the world. No other builder has our length of experience or dedicated owner feedback, and as a result, the new generation of Kadey-Krogens are by far the best long-range choice available - on any sea. to learn more about the design and construction of a Kadey-Krogen click here: <http://kadeykrogen.com/design/integrity>
