Summary/Description

For Sale

First and foremost, the Krogen 58' EB (Extended Bridge) is a home away from home, even a primary home, as the case could be. Every comfort has been provided. There's never the need to leave the nest to travel - you just take it with you, practically anywhere in the world you can find a fathom (or less) of water.

Recognizing that many customers enjoy an open-air experience while underway or at anchor, the extended flybridge, available in multiple configurations, marks an exciting new chapter for the popular and time-tested Krogen 58' model. The carefully designed differences built into the new Krogen 58' EB are found in the details and increased "liveability" of the vessel. Already designed with a larger than most covered aft deck for dining and socializing, the increased outdoor space on top now places the Krogen 58' EB in an entertaining class of her own.

The 58' EB is as perfectly suited for those new to the cruising world as it is for "old salts". She's solid and sure in the open ocean, with systems chosen for their reliability and simplicity of operation. The Krogen 58' EB could just as capably take you from Annapolis to Athens, as from Nantucket to Newport. Whatever the destination, this capable trawler yacht is ready to go and is truly, at home on any sea.

Kadey-Krogen Yachts invites you to use your imagination and your individuality to create a semi-custom Krogen 58' that reflect your own taste and personality. Traditional, contemporary or somewhere in between, our master craftsman will bring your vision to life. There's ample room in the saloon for occasional seating, settees or sofas and a cocktail table to match your style with blinds and/or drapes and window valences to match your taste. While members of the Kadey-Krogen community of owners have so much in common, tastes in décor range from traditional to contemporary. Kadey-Krogen Yachts can help you retain the services of experienced and highly capable interior designers with whom other owners have worked, as suits your needs.

Since the first Kadey-Krogen was launched in 1977, our yachts have confidently cruised the world. No other builder has our length of experience or dedicated owner feedback, and as a result, the new generation of Kadey-Krogens are by far the best long-range choice available - on any sea. to learn more about the design and construction of a Kadey-Krogen click here: <http://kadeykrogen.com/design/integrity>
