Not for sale for US residents while in US waters.

Brief Summary

M/Y North Star, Sanlorenzo SD126' is a semi-displacing vessel with an innovative bulbous-bow design. She has a GRP Composite Hull with five watertight bulkheads (one between garage and control room, one between control room and engine room, one between engine room and guest cabins, one between guest cabins and crew accommodation and the collision bulkhead), a partial double bottom where fuel oil, fresh water, black and grey water, bilge water, overflow and sludge, structural tanks are fitted, deck and superstructure in sandwich (with PVC as core). Propulsion is from twin high-speed diesel engines directly coupled to fixed pitch propellers.

This luxury yacht has four decks and a raised inside wheelhouse. The general arrangement is as follows:

- - Lower deck (swimming platform, garage, engine room, control room, guest's cabins, crew quarters, laundry, chain locker)

- - Main deck (aft cockpit, main saloon and dining room, day toilet, galley, Owner's suite, fore technical space, fore external area)
- - Upper deck (upper deck cockpit, sky lounge, pantry, day toilet, Captain's cabin, wheelhouse, sunbathing area)
- - Flybridge (aerial mast, sun-bathing area and bar area)

AC System

Tropicalized air conditioning system 480,000 BTU

Air conditioning condensation draining overboard

Engine Room Equipment

Double Racor filters for generators

Ball valve thru-hull fittings (engine cooling exhausts remain as gate valves) Engine oil change system with manual pump

Additional air conditioning raw water pump installed in by-pass

Water maker Sea Recovery 1800 gall/h in lieu of Idromar

Installation of FM200 fire system equipment (USCG approved)

Electrical System

Electrical system 127/220

Shore power connections Two (2) 220V AC 100A Three-phase 60Hz

Generators Two (2) 80kW

Battery charger: 12V/25A for generator batteries

Aft Glendenning Cablemaster(s) Two (2) CM8

GFCI located in technical room, head, galley, and exterior utilizing waterproof boxes in engine room and lazarette

Isolation transformers

Double gang 110V-60Hz USA/EU sockets

One (1) 24V master switch dedicated to navigation instruments and electronics at pilothouse

AV Equipment

PLATINUM Audio Visual package - including TV in crew cabins

Nav Electronics

VHF with US channels

FLIR thermal camera for night vision/low light
