This vessel is loaded with options but not limited to the ones noted below

Underwater Camera so you can see your Arnesen drives while underway

Retractable trampoline similar to the passerelle as many end up using the passerelle as a trampoline which causes many maintenance issues

Engine room A/C has been installed!!! Huge convenience for maintenance on the high performance MTU engines. Need to see this engine room as well. As it is very clean.

Stern Thruster

Fully functioning Ice Maker

Ladder retracts out from the swim platform that will raise and lower to make boarding that much easier.
