This is an amazing riding 27' center console. Fast, nimble, dry and smooth ride is just the beginning of this amazing fishing machine. Has a full length running surface with little to no bow rise when getting to plane. This boat has just as much, if not more deck space and room to move around than the top competitors 28' and 29' comparisons. The fit and finish on this boat compares with the best of them out there - you will not be disappointed. Cruises 2.3 to 2.5 mpg at 30 to 35 mph and will see 2.8 mpg at lower planing speeds. Top speed is 50 mph @ 1.4 mpg so she has lots of range!
