Summary/Description

NEW NAVETTA 73, A SUCCESSFUL COURSE

NEW NAVETTA 73, A SUCCESSFUL COURSE

The worldwide success of Absolute's "Navetta" family does not satisfy the creative flair of the Absolute designers, who have already accomplished the development of the new flagship model.

A journey into the desires of the hugest sea lovers has lead into the birth of a new yacht, which implements concepts typical of the bigger motoryacht, offering more than 80-feet's-units solutions, but at 73-feet-unit budget, with Volvo Penta IPS engine efficiency, which provides best performances, low consumption, unrivaled maneuvering precision, silent movement and absence of vibration.

The unique Italian design emerges thanks to the attention and the craftsmanship which characterize each boat's detail - depicting an unrivalled profile which shows a great personality.

The aim is to win new customers, by filling in a gap in nautical market.

The unquestioned spaces liveability is the drives this ambitious project: the absolute comfort course is almost set.
