Serial #: null

Summary/Description

“Absolute 60 FLY” is not only a luxury boat of 60 feet like others but, more than the others, she wishes to please those who love tan in the sun, thanks to the three dedicated sunbathing areas, one in the bow and two on the fly.

EVOLUTION THROUGH OUR EYES

Born to reveal new and endless possibilities, the 60 FLY - *The Absolute Prisma* is a revolutionary model, uniquely built with a very high level of innovation for a yacht of this size.

Thanks to new glazed parapets balustrades, the external lines are enriched by elegant, transparent barriers which offer breathtaking views both from the flybridge and the aft cockpit. In a new progression of our cockpit design, it does not include fixed elements or furniture, and can be furnished according to the owner's needs. Moreover, thanks to two convenient side stairwells, the large swim platform is easily - accessed for you to enjoy right at the water's edge. Adjacent to the platform, a fixed corridor offers direct access to the crew cabin.

This boat represents an incredible evolution both for our shipyard and the shipowner, offering high versatility of use and unparalleled livability in all areas, with no compromises.

Manufacturer Provided Description

At one with the environment and highly enjoyable, the flybridge area on the upper deck serves as a second outdoor living room ideal to sunbathe, enjoy a cocktail, and navigate while socializing. The galley, dining, and relaxation zones, as well as the highly technological helm station, offer extreme livability, elegant lines, beautiful color contrasts, and lovely finishes. The bow area is also designed for maximum versatility thanks to a sunbathing zone and a comfortable sofa with a table. This is the perfect spot to listen to music, socialize, and enjoy some privacy; all in one, day and night.

The interiors are designed with comfort in mind, are elegantly furnished, and embellished with fine materials. A continuous design links the lounge, galley, and cockpit together. One has a feeling of wide and boundless spaces, enriched by modern lighting, entertainment systems, as well as ergonomic air conditioning.

Even the bow area discloses new perspectives thanks to the creation of a shipowner's quarter: a full-beam cabin. Raised and with high ceilings, it features exclusive furniture and elegant finishing touches. Its refined and quiet atmosphere enhances comfort and privacy with a large walk-in closet, sea-view vanity, and large side windows to feel surrounded by nature. The VIP cabin has all the characteristics of the master cabin: open, bright, with an en-suite head, and lots of rooms to feel just like at home.

Options
