Volvo
D6 IPS 600
435HP
324KW
Fuel: Diesel

Summary/Description

The ALL NEW Absolute 48 Navetta is the perfect blend of style and performance.

SPACE-AND-LIGHT

In only 48 feet, Absolute has successfully gone beyond the design and building limits existing so far.

Indeed, thanks to her dimensions, the yacht responds to the “technical” requirements of the boat owner and at the same time she offers a great habitability enviable to boats of bigger dimensions than the Navetta 48. Here the concept of “space-and-light” is coined, fundamental for the well-being of the boat users. Only a test on board can fully report the amazing discovery experience that can be lived on board of this yacht: an unparalleled explosion of visual impact, elegance in shape and style, colors coordination, continuity of landscape and airiness. The feeling is to be on board of a boat whose dimensions are more generous than the nominal ones. In this piece of nautical jewelry, the absolute comfort is dominant: here the precious visual and tactile feelings lead, with the distinctive touch that only Made in Italy can impart to the opera. The areas allocated to the shipboard life are incredibly bright, wide, functional and versatile: big sunbathing areas on the flybridge and in the foredeck, internal volumes with three double cabins, two with king-size and queen-size beds accessible from three sides, and one with comfortable single beds. The two heads are wide, comfortable, bright and equipped with porthole allowing natural ventilation.
