Summary/Description

The Pardo 50 possess a perfect balance between performance and comfort. Its V-shaped hull has a variable geometry: 16° at stern and more than 50° in the forward section. This guarantees a great seakeeping and at the same time good maneuverability, allowing planning in safe and fast conditions.

AVAILABLE NOW FOR IMMEDIATE DELIVERY!!!

The Pardo 50 possess a perfect balance between performance and comfort. Its V-shaped hull has a variable geometry: 16° at stern and more than 50° in the forward section. This guarantees a great seakeeping and at the same time good maneuverability, allowing planning in safe and fast conditions.

The Pardo 50 is the epitome of Italian-style, performance, and comfort on the water. As the flagship model of the Padro Walk-Around model line, the 50 is exquisitely appointed while also offering excellent seaworthiness. The deep-v hull guarantees a smooth ride, gliding effortlessly through the sea safely and at exhilarating speeds.

Pardo Yachts is synonym for power and elegance, comfort, functionality and personalization. These values identify each Pardo Yachts model, hand built by expert artisans for a sophisticated owner, who appreciates high quality, top design, luxury and comfort, combined with performance and speed.

The deck is walkaround, developed on a unique surface, from bow to stern. The high freeboards provide great safety when having children or guests on board. The 172-square foot fixed T-top is made of rigid and light carbon fiber spreading from the cockpit to the dining area.

The interior plan is very unique and one of the key selling points of the Pardo brand. On the Pardo 50 you can find a wide open space with two cabins and two heads. These interiors with great heights are the core of the shipyard's DNA: a tailor made timeless design made by the hands of expert artisans.

The lines and the refined furniture are enhanced by the perfect choices of wood, and the attention to detail that make Pardo 50 an excellent symbol for the phrase 'Made in Italy'.
