Year: 2023

## Summary/Description

For Order - The C11 is designed to easily transport up to 9 people fast, protected and comfortable year-round, regardless of weather conditions. What stands out is the flexibility of the boat which gives it more uses.

The pilothouse sets this model apart from most other boats in its class. There are swiveling cockpit chairs as well as a passenger sofa all enclosed in a brilliant cabin with large windows. It even has an indoor galley and a double bed in the front cabin with separate shower and head. There is seating in the bow as well as a sunpad for owners that use the C-11 as a pleasure boat along with plenty of room on both sides of the pilothouse to walk around with ease. In addition to the front cabin, the C-11 also has a mid cabin with a double bed. Solar panels can even be installed as an option on the hardtop to help power the boat and its electronics.
