Heads: 1		

Engines/Generators

Engine 1

Mercury
Verado 2.6L
Outboard
350HP
Fuel: Gas/Petrol
Year: 2023

Summary/Description

For Order - The C9 is a purpose-built, rapid commuter vessel, constructed to equally meet the needs of year-round commuters, active day-trippers or those planning longer, staged journeys with overnight stays.

Nimbus Boats has now unveiled a third new model following the successful launches of the W9 and T9 models called the Commuter 9 (or C9 for short). The idea behind using a boat as a commuter vessel for everyday activities isn't new, but it's gaining popularity as coastal communities like those in Florida or the Pacific Northwest become more crowded and traffic worsens. The new Nimbus C9 is a functional and comfortable boat with the quality and safety that owners expect from the Swedish-brand. Nimbus is known for going above and beyond safety standards to create the best possible vessel on the water. So if your C9 will be transporting your precious cargo from dock-to-dock, rest assured that Nimbus put that little extra into its quality to ensure you'll get there quickly and comfortably. Aimed at the boat buyer seeking a fast commuter boat, but also wants the flexibility to use it beyond just transportation needs, the Commuter 9 delivers wonderfully.

"The C9 is a contemporary commuter vessel designed to make daily life onboard as simple and comfortable as possible, irrespective of whether you are travelling alone or with passengers. We have prioritized freedom of movement over interior volume in order to make it as easy as possible to board, move freely around the vessel and disembark. As a starting point for the design process we sought inspiration and DNA from our Max II Coupé and Paragon Series," explains Joacim Gustavsson, chief designer at Nimbus Boats Sweden AB. The C9 puts this functionality to the forefront by designing extra-wide gangways for moving about the boat, the greatest possible onboard load capacity, and large sliding doors so that more than one person can enter and exit the boat at one time.

At first glance, the Nimbus C9 simply looks like it is what it does best - a boat to move you and your passengers to destinations with a purpose. Always being practical, the designers at Nimbus also opted to give owners the option of using the C9 recreationally as well. It is a boat, after all. The overnight accommodations on board can sleep three adults and two children in the spacious fore-cabin as well as the salon which converts to a bed.

The Nimbus Commuter 9 can reach speeds of 40 knots, giving you the ability to get to your destination quickly. Contact your Seattle Yachts Sales Professional today to get more information on the new Nimbus C9.
