Summary/Description

The C11 is a fast and spacious year-round Commuter designed for long distance transport with high comfort. What distinguishes C11 from traditional commuters is that it can easily change its characteristics from "closed" to "open" to better suit day-to-day activities or as a family holiday boat.

Due to arrive in April 2024

The Nimbus Commuter 11, or C11 as it is referred to, was designed to be all-purpose, rugged, fast, yet comfortable enough to be your normal day-to-day cruise. **The C11 is a perfect vessel for the daily boater who uses the water as their method of transportation all year round, no matter the season.** The pilothouse sets this model apart from most other boats in its class. There are swiveling cockpit chairs as well as a passenger sofa all enclosed in a brilliant cabin with large windows. It even has an indoor galley and a double bed in the front cabin with separate shower and head.
