Summary/Description

FIRST SE SERIES HIGH-TECH PERFORMANCE FROM THE CUTTING EDGE OF RACING INTO THE HANDS OF THE RECREATIONAL SAILORS.

Available for Order

GET TO KNOW HER

The First 14 SE delivers the excitement, speed, and fun of high-performance racing skiffs in a modern, accessible, safe, and really easy-to-handle sport dinghy. The build quality and the high-tech materials allow you to push the boat in stronger winds, additional sail area options will also guarantee thrills in even the lightest of airs. Her removable wheels and overall weight – which allow her to be transported on the roof of a car – make it the ideal answer to an active lifestyle.

NAVAL ARCHITECT: Manuard YD

INTERIOR DESIGN: EP Studio

Concept and R&D: Seascape

EASY HANDLING

The First 14 SE is a very easy-to-handle sport dinghy thanks to her ingenious design – a wide, stable hull; a big, clean, and ergonomic cockpit; simplified control lines; furling and self-tacking jib; a gennaker snuffer system and no trapeze.

COMMUNITY

The First 14 SE promises pure connection to the wind and sea. But she also opens the doors to the largest recreational sailing community, where you'll challenge yourself in the growing One Design regattas and events.

PERFORMANCE

The First 14 SE is a very fast and stable dinghy thanks to the very light but stiff, wide, and flat modern planing hull, piercing bow, sharp chine, high-quality sandwich-vacuum-building technology, and a robust carbon rig.

The First 14 SE features on-the-go adaptability to single and double-handed crews alike without compromising sailing experience, thanks to two centerboard slots and a furling jib.

SAILING EXPERIENCE

The First 14 SE introduces the world of modern racing skiffs to recreational sailors in an accessible, stable, and easy-to-handle sport dinghy. She is designed to be sailed without trapeze, and you can easily adjust the sail area depending on the wind strength or crew size, without compromising sailing experience, thanks to two centerboard positions. This high-performance, fast and exciting sailing boat will directly connect you with the elements – the sea and wind. In addition, joining the One Design Class allows you to become a part of the largest recreational community of like-minded sailors. It enables you to test your skills on the racecourse and enjoy good company ashore.

MOBILITY 2.0

Freedom on the water is enhanced with unique removable wheels that will allow you to explore distant shores without the need to return to the starting point. The most hidden, wild, and beautiful beaches are now as easily accessible as never before.

On land, she is light enough to be transported on a car roof, so you can take her with you anywhere. Thanks to her flat bench design, she can be easily transported when turned upside-down, and her dividable mast and equipment easily fit inside the hull, so you can still fill your trunk up with your family's belongings.
