Summary/Description

This extremely well looked and maintained 3 cabin Maestro version Fountaine Pajot Saona 47 has been sailed in the Carribean by her owners since 2019. The boat is setup for off grid live aboard living and blue water sailing. Perfectly and fully equipped. Absolutely loaded!

This extremely well looked and maintained 3 cabin Maestro version Fountaine Pajot Saona 47 has been sailed in the Carribean by her owners since 2019.

The boat is setup for off grid live aboard living and blue water sailing. Perfectly and fully equipped. Absolutely loaded!

There are 6 Trina solar panels (1.800w total) on a stainless frame off the back of the coachroof, connected to 5x 100/30 Victron mttp controllers, with 4x360ah (1.440 ah total) LithiumIon batteries, and a 5000 Watt Victron inverter.

All electrical systems and appliances are connected through the inverter to allow everything on the boat to be run off the batteries and solar (with thoughtful power management). This includes heating hot water, running water maker, running washing and dishing machine, AirCondition, using kitchen electrical appliances etc. As there is although a generator as a back-up, their needs in the power management are totally satisfied.

The owners have lived on anchor during the sailing season like they can live on the dock.

With lead time for a new boat now into 2025, without any price fixation/guarantee! From the dealer/supplier (new price at least 1,25 Mio. €), you can jump the queue and be on the water in this turnkey ready Saona 47 for the 2022/2023 sailing season. You do not want to miss out on a great opportunity to own a truly turn key catamaran.
