Summary/Description

The world reference in cruising. Oceanis is our range of long-distance, blue water cruisers & for years has set the standard for sailboat design and construction. With a hull that is a marvel in hydrodynamics, Oceanis delivers superior performance while providing stability and safety under sail.

AVAILABLE FOR OCTOBER 2023 DELIVERY!

Following in the wake of her elder sister the Oceanis 51.1, this 40-foot cruiser, with a new hull design by Marc Lombard, offers unrivalled deck volume and interior space, and there are no concessions to performance. The 12-metre long Oceanis 40.1 is available in different layouts, draughts and rigs, adapting to the most demanding sailor's cruising requirements and satisfying their need for comfort and pleasure under sail.

NAVAL ARCHITECT: Marc Lombard

INTERIOR & DECK DESIGN: Nauta Design

EXTERIOR DESIGN

How can you enjoy life at anchor as much as sailing? With the innovative flared hull design of the Oceanis 40.1, and steps extending over a third of the bow, BENETEAU has broken new ground but made no concessions. The result is a hull that has true speed potential and is stiff under sail. Above the waterline, her deck plan and ultra-spacious interior by Nauta Design is unheard of on a boat this size. You cannot help feeling that you are aboard a 45-foot cruiser!

INTERIOR DESIGN

With a walnut or light oak ambience, the styling of the interior by Italian designers Nauta, is remarkably bright and excels in the skilful arrangement of the living spaces. She is available with two, three or four cabins and a C-shaped galley on the starboard, offering lots of storage and a spacious worktop. On the port side, there is a large saloon with a table and a removable bench, and a chart table at the foot of the companionway provides ample working space. Everything is modular so that everyone can live the way they want and enjoy sailing wherever the wind takes them.

12 METRES OF SPACE!

The philosophy of the Oceanis 40.1 is to make sailing and mooring really pleasurable. The strengths of this cruiser, studied in detail by the architect Marc Lombard and the BENETEAU design office, are unrivalled space inside, a huge deck plan and the ability to clock up miles when you are cruising.

12V AIR CONDITIONING

Enjoy an air-conditioned interior while out sailing without the weight, fuel consumption and noise of a generator.
