About the 2006 35th Anniversary Catalina 28 MKII

The Catalina 28 Mark II is a careful blend of innovation and traditional values, insuring the she passes the test of time.

Notable features of the deck are the walk-through transom, stern boarding platform, and easy access forward on the wide unobstructed decks.

The ergonomically correct cockpit seats and coamings reflect the importance of the cockpit comfort to the crew. The cockpits are a Catalina hallmark.

The sail controls all lead to the security of the cockpit. The rig is masthead with double spreaders, fore and aft lower shrouds permitting powerful headsails and narrow sheeting angles for good windward performance.

The interior is spacious and comfortable. The galley and head are aft for convenience to

the cockpit. Special attention has been given to the traffic patterns, ventilation, storage and privacy.

The warm and inviting main cabin is a masterful blend of rich fabrics and the timeless beauty of teak and ash traditional finishes. Natural light and ventilation abound through numerous opening ports and hatches.

The galley is a marvel of space planning and convenience. Separate lockers for utensils, pans and dry food are all well located. Countertops are durable, easy to clean one piece molded surfaces. A gimballed stove converts to counter space with the handy flip up cover.

The headroom is generous and all berths are extra long, uncommon but welcome features in a twenty-eight footer.
