Hours: 850

Summary/Description

LIBERTAS ONE is a demonstration yacht built with all premium options like the very efficient Seakeeper stabilizer.

LIBERTAS ONE is a Sichterman Libertas 15m built in the Netherlands and designed by Cor D Rover. She is a full aluminum yacht born because of the dream of a very experienced yacht owner and under the engineering of the famous Van Oossanen architect who developed the specific "Fast Planning Hull Design". Because of this hull and her Volvo IPS 950 engines, LIBERTAS ONE can reach the maximum speed of 38 kn and can cruise easily at 32 kn in extreme comfort and with low fuel consumptions. LIBERTAS ONE is a demonstration yacht built with all premium options like the very efficient Seakeeper stabilizer. On top of that, LIBERTAS ONE is sold with one year free "Sichterman Care Program," an advanced management software, "Deep Blue," which is a personal assistant 24/7.

Key Features:

Bow thruster

Seakeeper Stabilizer model 9

Aluminum Hull

Easy to preview in Fort Lauderdale

Vessel Walkthrough

ABOUT LIBERTAS 15M:

The honoring of the goddess of liberty began over 2000 years ago in ancient Rome. To the Romans, liberty meant freedom of action, independence and personal freedom, among other things. Values that are still a vital part of everyday life. The Sichterman Libertas incorporates all of these elements.

The word that best describes the Libertas is versatile. This neat vessel serves multiple purposes. It is equipped with everything needed for a delightful day out on the water, to explore long stretches of coast at high speed, but is also a perfect and trustworthy tender that takes its owners to and from harbors when they have the desire to set foot on land. Everything on board the Libertas is designed to enhance pleasure and comfort.

Whether it is the joystick steering option that makes the yacht easy and fun to navigate, the on-board air compressor to inflate toys and equipment, or the private space to freshen up below deck before going on land.

Every detail is designed with a purpose, making the Libertas able to accommodate everything one could wish for. Being able to do so, this all-around functional companion gives its owners the ultimate freedom of choice. The Romans would be proud.

The signature of Cor D. Rover is written clearly on the Libertas, as well as on other Sichterman yachts. The unique design isn't only easy on the eyes but serves a purpose as well. It's functional, safe and brings a smile to every passenger's face.

The simplicity and effectiveness of the design of the Libertas are the result of hundreds of years of sailing yacht history.

The Libertas's relatively wide, round bilge hull is optimized for a broad speed range. It equals the hard-chine planning hull forms which are most commonly built in this size range in terms of speed, but with a much more economical and comfortable low-speed operation.

ACCOMMODATIONS:

Main deck

- Pilot and copilot seat at port
- Copilot seat at starboard
- "L" sofa with table at port
- Sofa at starboard
- Bimini (two parts)
- Roll bar with LED lights
