- Only 16'9" from Top Of Arch

A true modern classic built to the highest standards. "Hatteras Yacht"

Overview

The true standard of beauty in yacht design today is how well an individual layout enhances your enjoyment of the water. Not just being on top of the water, but being in and around it as well. Whether you want to cruise the coastline or go snorkeling in some hidden cove. Whether you choose windsurfing with friends or simply sharing the pleasures of marina life. No matter what water-bound pastimes you pursue, the fact is the closer a layout brings you to the water, the better its design. And, in this way the design of the Hatteras 50 Sport Deck Motor yacht with its unique aft activity platform, is exceptionally attractive.

Its stylish reverse transom with curved stairway, until recently available only aboard the largest motor yachts, provides easy access to the water without taking away from the welcome liveaboard features one expects aboard a traditional motor yacht.

Topside, the flying bridge layout provides room for conversation while underway and is ergonomically designed for full-circle visibility. A few steps below, the 150 square foot covered aft deck offers a patio-style setting and at your option,

can be permanently enclosed and equipped with air conditioning and a wet bar with icemaker.

Taken altogether, the Hatteras 50 SD is a remarkable yacht, both livable and maneuverable, functional, and fun, and as close to the water as you want to be. (Hatteras Yachts)

Salon

- Wet Bar

Exclusions

Seller's Personal Items, Artwork, and aft deck furniture

Broker's Remarks

It's always a pleasure to preview a boat that has been truly well-kept her whole life. She's been preserved in freshwater and covered slip so the absence of salt and sun abuse is evident throughout the boat. A true "one of a kind".
