

Poco a Poco II

46' (14.02m) 1998 Nordhavn 46
Port Bolivar Texas United States

OVERVIEW

\$339,000

Manufacturer:	Nordhavn		
Engines:	1 Lugger	Hull Material:	Fiberglass
Engine Model:	L-668D	Cruise Speed:	8 Knots
Engine HP:	143	Max Speed:	9.5 Knots
Beam:	15' 5"	Cabins/Heads:	2 /
Max Draft:	5' 6"	Fuel Type:	Diesel
Water:	280 G (1059.91 L)	Fuel:	1000 G (3785.41 L)

Data Sheet

Category: Trawlers

Condition: Used

Model Year: 1998

Beam: 15'5" (4.70m)

Max Draft: 5' 6" (1.68m)

Min Draft: 5' 6" (1.68m)

LOA: 45' 9" (13.94m)

LWL: 38' 4" (11.68m)

Cabins: 2

Maximum Speed: 9.5 Knots

Cruise Speed: 8 Knots

Range NM: 3000

Fuel Type: Diesel

Hull Material: Fiberglass

Air Conditioning: Yes

Displacement: 60000 Fuel Tank: 1000 gal
(3785.41 liters)

Fresh Water: 280 gal (1059.91 liters)

Holding Tank: 50 gal (189.27 liters)

HIN/IMO: PAI46059H198

Engines/Generators

Engine 1

Lugger

L-668D

Inboard

143HP

106.64KW

Fuel: Diesel

Hours: 2801

Location: Middle

Summary/Description

Nordhavn 46 Long Range Cruiser

Manufacturers Description:

Every decade or so a yacht is designed that is extraordinarily successful by all measures. Lines and proportions are wonderfully pleasing, while at the same time highly functional. Aesthetic attraction is universal, performance is exemplary, and the ideal balance between subjective and objective qualities is achieved. One design having all of these characteristics is rare, and it invariably becomes a classic by which others are measured. In the highly specialized world of oceangoing, recreational power vessels, the Nordhavn 46 has achieved the legendary status of a modern day classic. Born from the driving passion of the founders of Pacific Asian Enterprises, P.A.E., the 46 was from the very beginning a design that broke the marketing and styling rules of the day. Challenging the popular trends of the marine industry for light, go-fast boats, the Nordhavn 46 immediately attracted an ardent following of sailors and power boaters who shared a common desire to travel the oceans of the world. Many had read Robert Beebe's *Voyaging Under Power* and were searching for their ideal passage maker. Others had simply become tired of the discomfort of voyaging under sail and the dependence on fair wind and good weather. The P.A.E. team, already developing and marketing the beautiful, oceangoing line of Mason sailboats, saw this opportunity and introduced the Nordhavn 46 to the enthusiastic response of experienced cruisers. What may have seemed like a cult following at first has grown to a worldwide family of boat lovers who enjoy the comfort and simplicity of voyaging under power.

Equipment List

LAYOUT:

Once on board you can enter onto the starboard covered side deck amidships through a bulwark door, port cockpit via a bulwark door, or from the swim platform through a transom door into the cockpit. From the cockpit a large sliding door opens to the salon and galley. Forward and to starboard are two sets of steps... one up to the Pilothouse and the other down to the two staterooms. Moving down and forward the guest quarters are to port and the private guest head and shower to starboard. Further forward is the owner's head and shower to starboard and the owner's living quarters all the way forward. Taking the steps up from the salon takes you to the Pilothouse. One can exit the Pilothouse to the side decks and Portuguese bridge through port and starboard sliding doors. Boat deck can be accessed from the port side deck or cockpit ladder.

MAIN SALON:

This open and airy living area measures eleven feet by twelve feet. An "L" shaped settee and two swivel chairs provide ample seating for six. A beautiful moveable dining/card table measuring 40"x40" when opened can be securely stowed when not in use. Soles are teak & spruce. The shaded after deck is easily accessed through a large sliding door. There's an abundance of ventilation and light through opening stainless marine windows and a beautiful view of the yacht's surroundings when the custom blinds are open.

GALLEY:

Efficiently designed, the galley has abundant storage and counter space. The position is such that it is out of the main stream of salon traffic, yet not isolated. The person working within the galley will be able to participate in any conversation and see all activity within the salon area.

- Counters are covered with upgraded Surrell
- Upgraded Refrigeration with Two sets of Isotherm Stainless Steel Refrigerator/Freezer drawers under fwd. counter.
- Force 10 propane stove & oven outboard with exhaust fan. Two large propane tanks (one active, one spare) are housed in a hidden compartment on deck.
- Oversize GE convection microwave oven above the stove
- Broan trash compactor under aft counter
- Double stainless 10" deep sinks
- Hidden pass-thru to wheelhouse

GUEST STATEROOM:

Guest quarters are located down and amidships. This stateroom, located to port, has a roomy bright feeling. It has beautifully finished teak cabinetry, white laminate bulkheads with teak trim, and teak & spruce soles. There is a double berth (6'4"x4'5") athwartships with a pull out single berth above. There is a separate head with a stall shower to Starboard.

OWNER STATEROOM:

Another room that has that open airy feeling is the Owner stateroom, down & forward. Plenty of natural ventilation and light provided by opening stainless ports and three overhead hatches (two small & a large escape/vent hatch). With long range cruising in mind Poco a Poco II has two hanging lockers, a 6 drawer vanity, four deep drawers under the centerline queen (6'6"x5'6"), storage under the dressing bench, and multiple other storage areas. The private head & stall shower also has abundant storage.

Master & Guest heads both have upgraded Surrell countertops with special order white sinks, Jabsco electric heads with macerator, medicine cabinet with mirror, and molded seats in the shower.

WHEELHOUSE:

Located amidships where the effect of the pitching motion of the yacht is felt the least. There is a bench for four with a wide table for dining or just enjoying the panoramic view. A pilot berth is up & aft of the settee and has a slide out extension to make it into a double berth. Note that while on passage, on a couple crewed yacht, the off-watch partner can sleep comfortably within reaching distance of the person

on watch.

WHEELHOUSE EQUIPMENT:

- **Furuno SSB Transceiver Model 1502**
- **Furuno GPS Plotter 1810**
- **Furuno Front Radar**
- **Furuno Color Fish Finder/depth FCV-600L**
- **Furuno GPS Navigator**
- **Simrad Auto Pilot AP20 with hand held remote**
- **Icon IC M504 VHF Radio**
- **B&G Network Depth/ Speed/Wind**
- **Seahail Loudspeaker with communications speaker in aft cockpit**
- **Ritchie 6" Compass**
- **Clock and Barometer**
- **Search light**
- **Fans**
- **EPIRB**
- **Stainless Destroyer wheel**
- **Fold up teak pilot seat**
- **Master electrical panel**
- **American Bow Thruster control**
- **Windlass controls**

FOREDECK EQUIPMENT:

- **66# CRQ anchor with 400' 3/8" chain**
