The 235 model is versatile, reliable and perfect for a variety of activities, including fishing, cruising, and water sports. Freshly bottom painted and includes an aluminum trailer, she is like new and ready to go.

Descriptions

Manufacturer Provided Description

The NorthCoast 235 is perfect for fishing, cruising, and entertaining. It has a spacious cockpit with plenty of seating and storage, a comfortable helm station with a clear view of the water, and a cabin with a V-berth and head. The boat is powered by a single Yamaha 250 horsepower engine and has a rated top speed of 43 mph.

The NorthCoast 235 is a well-built boat that is made with high-quality materials. It has a "no wood" construction that makes it durable and easy to maintain. The boat also comes with a 12-year structural hull warranty.

The pilot house is a spacious five feet in length and offers six feet three inches headroom at the helm. With the white powder coated venting windshields and sliding side windows, all in a custom frame, you get all the fresh air nature has to offer. The cabin is outfitted with a two-tone fiberglass headliner and a molded fiberglass interior v-berth with storage below. In between the berths is a covered portable head. The two opening ports and overhead hatch (all with screens) provide great ventilation and light.

With a top speed of over 40 mph, you can get to the fishing hole and back quickly and safely. The NorthCoast 235 transom or platform mounted outboards are easy to maintain, fast, and efficient. This exceptional hull provides excellent stability at rest, while fishing, drifting, and planes with minimal effort to get underway. There is knowledge and strength in our practicality and yes, we also appreciate being comfortable.
