- ... More details to come

Manufacturer Provided Description

This 40-knot speedster is as much about performance as it is about comfort. A high performance hull belies the space onboard, where accommodation is optimised. Both open and hard top versions are available. And as well as a choice of engines, there's also an option in drive systems. The more compact pod drive saves engine room space enabling an enlarged master suite. Luxury is extended throughout with a large main deck area providing ample space for dining and entertaining. Large sunpads are positioned fore and aft and the garage provides ample storage for tender or jet ski. Down below the saloon and three guest cabins all offer a typically high level of comfort and feature their own entertainment systems.
