63' (19.20m) 2011 Hampton 630 Sky Lounge
Annapolis Maryland United States

OVERVIEW

\$1,295,000

Manufacturer:	Hampton	Hull Material:	Fiberglass
Engines:	2 Caterpillar	Cruise Speed:	17 Knots
Engine Model:	C-18	Max Speed:	20 Knots
Engine HP:	1015	Cabins/Heads:	3 /
Beam:	18' 3"	Fuel Type:	Diesel
Max Draft:	"	Fuel:	1200 G (4542.49 L)
Water:	300 G (1135.62 L)		

Data Sheet

Category: Motor Yachts
Condition: Used
Model Year: 2011
Refit Year: 2019
Beam: 18'3" (5.56m)
LOA: 68' (20.73m)
LOD: 63' (19.20m)
Cabins: 3
Sleeps: 6
Single Berths: 2
Queen Berths: 1
King Berths: 1
Full Beam Master: Yes

Maximum Speed: 20 Knots
Cruise Speed: 17 Knots
Range NM: 500
Fuel Type: Diesel
Hull Material: Fiberglass
Hull Shape: Modified Vee
Bridge Clearance: 21'

Dry Weight: 89000 lbs
Stabilizers: Standard
Fuel Tank: 1200 gal (4542.49 liters)
Fresh Water: 300 gal (1135.62 liters)
Holding Tank: 100 gal (378.54 liters)
HIN/IMO: IEW63112H011

Engines/Generators

Engine 1

Caterpillar
C-18
Inboard
1015HP
756.89KW
Fuel: Diesel
Hours: 1030
Hours Date: 11-17-2023
Location: Port

Engine 2

Caterpillar
C-18
Inboard
1015HP
756.89KW
Fuel: Diesel
Hours: 1030
Hours Date: 11-17-2023

Generator 1

Kohler
23KW
Hours: 820

Generator 2

Kohler
15KW
Hours: 790

Summary/Description

A very rare sky lounge model that has been updated from her electronics, audio/visual, soft goods and machinery maintenance. Very turn key.

Accommodations

Main Saloon

Entertainment cabinet with *updated 55" OLED TV*, bar and bottle storage

Freedom lift with AB RIB, 40hp Yamaha

Boarding ladder storage in the portside vertical riser

2 Independent Caterpillar Engine and Sidepower thruster controls on both the starboard and port side vertical risers

LED overhead lighting with dimmer controls

Engine Room, Mechanical and Electrical

Twin Caterpillar C-18 ACERT Engines rated @1015 HP (Complete 1000 hour service 2022 with new after cooler cores)

Racor fuel filters for each engine and 2 generators

Jabsco engine room blowers

Aqua 3" diameter drive shaft

ZF500 Transmissions

ZF 38.5 Props with 35.5" pitch

Headhunter fresh water pumps

Seaward 20 gal hotwater heater

Rule automatic bilge pumps

Bosworth guzzler manual bilge pump

Reverso oil changing system

Marine Air AC Air handler

2 Chilled air reverse cycle AC system

Spare raw water pump with selector valves for AC cooling water

Underwater exhaust system with bypass to transom

Dripless packing glands with spare seals on shafts

Dripless packing water supplies from both engines

Engine room surfaces lined with Soundown insulation

Fiberglass exhaust mufflers

300 gal fresh water tank

Pressurized fresh water system

3 fuel tanks 1200 gallons total

100 gallon waste holding tank with macerator pump

SS rudders and rudder posts with dripless shaft seals

Color copper coded fuel, water and hydraulic fluid lines

Seacocks and sea strainers on all through hull fittings for engine and generator raw water

Engine room 110 Volt AC and 24Volt DC lights

Engine room fire suppression and shut down system

Emergency bilge pump with main engines with valves

Fresh water outlets

White polyurethane painted bilge

Electrical System

Kohler 23KW/60Hz Generator with sound shield (790 hours)

Kohler 15KW/60Hz Generator with sound shield (820 hours)

Magnasine 4.0 KW Inverter with remote panel

Charles ISO Boost Transformer (2)

2 Glendenning Cablemasters 75' 50 amp/24volt

Charles Battery Charger 50 amp/24 volt

2 Charles Battery Charger 50 amp/24 volts

Six 200 amp heavy duty batteries with battery boxes

Eight 100 amp heavy duty batteries with battery boxes

Two 4D Batteries

Complete AC/DC breaker/distribution panel with backlight

Main breaker panel

Inverter zone control panel

Inverter control panel charger monitor

Generator control panels (2)

Shore selector switches

Battery selector switches

120volt electrical outlets throughout

2-50 amp forward shore power connections

Added Options and Features:

Water Maker

Marquipt Tide Ride rotating boarding steps with landing

SAT TV KVH Tracvision HD7 with 5 Direct TV receivers

Maxwell 3500 windlass with 2 control stations

100 lb Bruce Stainless anchor

Bosch washer

Bosch dryer

2 Video Cameras

2 Video Monitors

Nutone Central vacuum system

New custom lounge bow pads, adjustable

Side power stern and bow thrusters

Bow pulpit 275' anchor chain

Deck wash downs aft and forward decks

Stainless steel 316 grade mooring cleats, chocks, anchor roller, handrails, and stanchions

TV, Phone and water inlets

Stainless steel opening ports with screens

Screens on entry doors

Other Important Information

Important superior design features that supports the Hampton as one of the finest boats built today with absolute attention to detail and safety

Hand-laid solid fiberglass hull in one piece

Vinylester resin for first layers of hull lay-up

Two layers of Kevlar chine to chine and 3 layers of Kevlar in the forward collision zone

Wedges added to keel for prop protection

Hand-laid fiberglass deck, deckhouse, and flybridge core with high strength divynil cell foam

Hull and deck joints thru-bolted every 6" sealed and glassed with multiple layers of fiberglass

Longitudinal and transverse stringer systems

All doors and windows have tinted glass (not forward helm windows)

LED lighting throughout the boat

Interior structural components all bonded to the hull

Molded FRP rub rails capped with stainless steel trim rails

Overview of this Hampton 630 Skylounge Custom Build

Overview and Notes on Build

The Hampton 630 Skylounge Motoryacht is a result of 150 years of boat building expertise by one of the finest Yacht builders in the world, she reflects the uncompromising commitment to extraordinary design, construction, safety, and value.

Hampton uses the highest quality of rich satin with gloss burl trim furniture, their craftsmen have painstakingly joined each piece that results in flawless corners, **carefully carved from solid wood, not just laminations**. The uncompromising woodwork is what Hampton owners have come to expect.... in short quality that you can see, touch and feel.

Hampton offers superior quality above world class standards, that means each Hampton 630 is a **100% hand laid one-piece fiberglass hull that features solid fiberglass below the waterline with three outer layers of vinylester resin to prevent blisters and Kevlar is added to the collision zone for strength**. The sharply veed forward hull sections give the 630 a soft and dry ride, while the flattened lines aft add to the stability as well as the efficiency for superior fuel economy. Propeller tunnels are used to level the engines, add directional stability, and allow shallow water adventuring.

When at the helm in the Hampton 630 Skylounge, there is a choice of the latest navigation and communication electronics in the sweeping instrument panel with every feature needed for easy piloting including dual thrusters and cameras for monitoring the engine room and the aft areas of the boat. A comfortable settee with a beautiful burl inlay table allows your family and friends to keep you company and with wet bar and flat screen TV it's one the favorite areas of the yacht. Congregating in the Skylounge you have discovered one of the reasons that the Hampton 630 is the perfect jaw dropping stunning yacht for those seeking quality and comfort. When the weather is chilly or wet, the Skylounge is super comfortable while in warm weather it remains an air-conditioned respite. From mid ship through aircraft-style stainless steel doors lead to the wide side decks with high bulwarks for peace of mind. This is truly a yacht for all seasons and all reasons.

This 630 has a three stateroom 3 head layout that take full advantage of the generous eighteen-foot beam, design flexibility has always been a feature of every Hampton yacht and this owner has maximized the best in interior layout with the finest appointments. These include a full beam master stateroom with full beam his and her heads and centered shower in between them. The doorways are comfortably wide, the stairwells gentle and spacious, and even the seating is carefully designed for comfort. As an example, the dining settee is oversized for comfortable relaxed gathering.

For absolute reliability, everything on the Hampton 630 from the powerful diesels right down to the electrical wall switches can be easily maintained, with readily available parts as well as service. This owner has opted for the upgrade engine package that includes the C18 Acert Caterpillar engines.

This Hampton offers a long list of equipment. Major items like the Wesmar stabilizers, generator, bow thruster, air conditioning, full electronics package, entertainment system, full galley appliances, central vacuum system, and rich satin finish interior are all included with each Hampton 630 from the factory, however,

To really see the quality built into each Hampton 630 you have to look the details this owner added in his specifications to the factory. **He added several hundred thousands of Dollars in additional options as listed within in the full specifications, including a custom re-design of the helm that added more square footage to the living space of the Skylounge and improved the sightlines over the bow considerably, very high end Pompanette seating in the Skylounge, multiple satellite receivers dedicated to each area of the boat, extra generator just to mention a few.**

Amazingly every possible extra foot of space has been converted into useful storage. Explore the engine room, and you will find that the wiring is neatly loomed and color-coded, that all the maintenance areas are easily accessible, and every pipe has a label at each valve. Look at the decks and you will see properly placed and sized scuppers. Hampton builds oversized deck rails for added strength and with polished 316 stainless steel. With no exposed wood on the exterior, the Hampton 630 is as easy to maintain as she is to handle.

Whether your interest is safe and comfortable extended passage-making, harbor-hopping along the coast or living aboard, the people at Hampton Yachts and this owner have created a stunning Motoryacht.....there is no equal being built that incorporates, quality, safety fit and finish like this custom build 630 Hampton.
