Summary/Description

2000 J 105

2000 J Boats J 105 Features:

Sailing World Magazine's panel of experts selected J/105 as Boat-of-the-Year among racer-cruisers in 1992. Since then over 1500-plus have been launched worldwide, fulfilling a variety of needs. Enthusiasm for this great boat continues to blossom with an active owner's association and owner-maintained web site to help sailors get the most from their boat. J/105 is the most successful modern one-design keelboat class over 30 feet in the world. J/105 makes sailing easier and smoother. No pitching, no rolling about and no panic drills. Gone are feverish routines of course and sail changes. Enjoy the luxury of a dodger while napping on full-length cockpit cushions. Only one jib to tend. Roll it in or out. The spinnaker is contained in a snuffer. Jibing is a one person operation. Simply let go the old sheet, then trim in the new one. Good-bye big racing crews and foredeck work. Hello fun and relaxation. Whether it's blowing 5 mph or 20 mph, sailors will want to set J/105's asymmetric spinnaker - even with just two people aboard.
