Summary/Description

For Sale

The Leopard 46 was built in South Africa by Robertson and Caine and was designed by Gino Morelli and Pete Melvin, who drew the record-breaking maxi-catamaran PlayStation. But make no mistake, this 46 footer is also designed to cruise in comfort. The hulls are narrow at the waterline - skinny is faster than wide - and have a very fine entry, then flare sharply to a chine just above the water for good interior volume and reserve buoyancy for sailing in a seaway. The cockpit design is excellent, easy to get around, has lots of seating; a great enclosed social area. The raised helm position gives an excellent 360 view and ideal for short-handed sailing, plus also enclosed for inclement weather. The saloon area is vast with excellent forward facing nav station, large galley and saloon seating area. This is the 4 cabin/4 heads version with small crew berth with head forward. The owners have had the 46 from new and taken excellent care and attention throughout the years of ownership, and it comes fully loaded for another circumnavigation. Finding a 46 that presents as well as this example is a very rare find. These boat details are subject to contract. Note: Offers on the asking price may be considered.
