There is no doubt this MC 6 has all the qualities of a yacht. As you enter the Monte Carlo 6 you are captivated by the amazing and inspiring harmony. This derives from the luxury world of the Monte Carlo Yachts brand. Her living spaces are incredibly generous, her layout combines communication and intimacy, and her materials and trims are noble, all making your lifestyle onboard exceptional for this size of boat.

Manufacturer Provided Description

The Monte Carlo 6 has won over the most demanding boaters worldwide. Elected boat of the year in the 'Flybridge up to 60ft' category at the 'Motor Boat Awards' organized in London, the MC6 has carved itself a niche due to its style, services, and top-quality build. There is no doubt – she has all the qualities of a yacht.

60 Feet of Style and Performance

Boasting the best of the yacht tradition, this splendid motor cruiser has an attractively flared-out hull design, a surprising recess of the side windows in relation to the windshield, as well as round hull portholes, and she catches everyone's eye at sea.

Recognized as one of the most spacious in her category, the flybridge of the Monte Carlo 6 is designed like a huge terrace. Accessed by a stairway starboard of the cockpit, its large lounge can hold up to ten people. Large sunbathing areas, comfortable seats to enjoy driving, and excellent protection afforded by the T-top are all features that make this an ideal living space.

With two sun-loungers on the foredeck and an interior layout offering a choice of two or three good-sized cabins, plus a crew cabin, the Monte Carlo 6 is the height of luxury accommodation. The interior boasts an open design oozing with character, in which there is seamless communication between the galley located at the center of the boat and the huge lounge and central driving station.

Aft, the large owner suite with en-suite shower room affords great privacy.

High Quality Manufacture

Designed by the talented Italian duo, Nuvolari-Lenard, the Monte Carlo range unites the traditional know-how of the Vendée workshops with intelligent engineering and modern industrial processes. Perfectly controlled by Beneteau boatyards, this combination of technology and tradition is echoed in the way the woodwork is handled. The interior cabinetwork is well-designed in brushed oak and the wood used for the exterior is teak, following yachting codes and traditions – Everything on board the MC6 is the paragon of precision and top-quality finish.

With this boat – the fruit of 130 years of boatbuilding – Beneteau has succeeded in completely renewing the idea of luxury in the motor cruiser segment while delivering technologically innovative solutions.

Salon
